

# REDLINE AUTO SUPPLY CANADA™

Driven by Quality – Powered by Canada

## CERAMIC BRAKE PADS – COMPLIANCE & CERTIFICATION SHEET

### Product Overview

Product: Ceramic Brake Pads

Brand: Redline Auto Supply Canada™

Application: Passenger Vehicles (Daily Driving / Aftermarket Replacement)

Market Positioning: Mid-to-High Tier Aftermarket

Redline™ ceramic brake pads are engineered specifically for Canadian driving conditions, delivering strong, consistent, and quiet braking performance with clean wheel operation.

### Friction & Performance Specifications

- Friction Grade: GF
- Coefficient of Friction ( $\mu$ ): 0.45 – 0.55
- Performance Characteristics:
  - Stable braking under low and high temperatures
  - Reduced noise and vibration
  - Consistent pedal feel

Redline™ pads compete directly with trusted aftermarket brands such as Wagner ThermoQuiet, Bosch Blue, and Raybestos EHT, offering an ideal balance of safety, performance, and value for Canadian customers.

### Regulatory & Environmental Compliance

- Asbestos-Free / Copper-Free (Compliant with California 2025 standard)
- Fully compliant with Canadian and U.S. brake material regulation

## Certification & Testing

- ✔ Tested by an accredited independent laboratory
- ✔ AMECA registered (Automotive Manufacturers Equipment Compliance Agency)
- ✔ Compliant with VESC V-3 Standard, the North American benchmark for aftermarket brake friction materials

AMECA registers and maintains certification records for aftermarket brake friction materials. Product compliance is verified via registered Edge Codes.

### AMECA Edge Code Certification:

Each Redline™ brake pad is permanently marked with a registered Edge Code™ for traceability and compliance.

### Example Edge Code:

M9203 GF

Edge Codes can be independently verified in the AMECA public database:

 <https://www.ameca.org>

## Hardware & Noise Control

- Multi-layer noise-reducing shims included
- Required hardware kits included where applicable
- Designed to minimize squeal and vibration

## Warranty

All Redline™ Ceramic Brake Pads are backed by a **60,000 km limited warranty** against manufacturing defects, providing added peace of mind for Canadian drivers and installers.

## Why This Matters

- ✔ Certified safe and compliant for legal road use
- ✔ Traceable quality via AMECA Edge Code registration
- ✔ Reliable, cost-effective alternative to higher-priced premium brands
- ✔ Designed for Canadian climates and driving conditions
